BASIC / ADVANCED MANAGEMENT

Orbit™

Seamless, Touch-Free Security

Orbit is Digilock's newest multi-directional RFID

locking solution. Featuring a sleek, "barely there"

user interface, Orbit is a versatile, all-in-one security

system that simplifies storing your belongings

safe and sound.

Digilock®

Clean, streamlined and easy-to-use, Digilock's latest entry for secured personal storage is as minimalist as it is effortless. Orbit's locking mechanisms function as either shared or assigned use, giving you flexibility for both open and private work environments.

Enjoy the benefits of touch-free RFID technology for a more efficient workflow—safety with a subtle footprint.
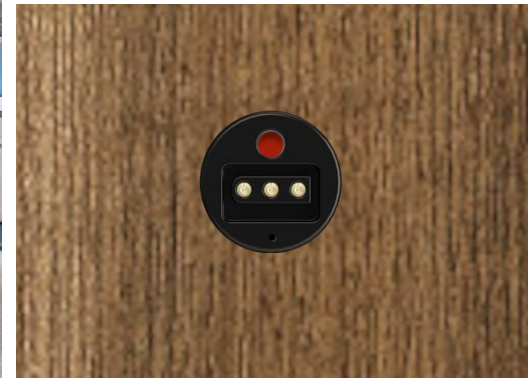

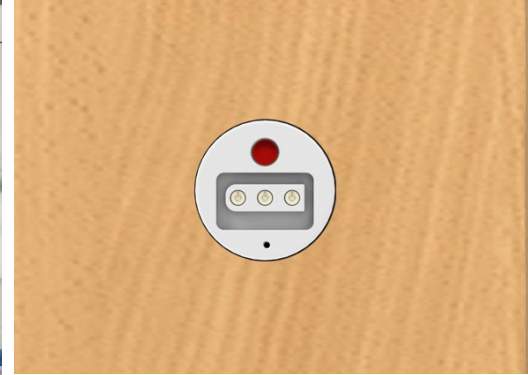

Safely Hidden in Plain Sight

Engineered for Anywhere

From inspiration to installation, we partner with our customers in many industries to ensure that their facilities offer the latest in personal security solutions, providing convenience and peace of mind.

- Workplace
- Healthcare
- Hospitality
- Retail
- Manufacturing
- Government

Combining quality construction with state-of-the-art security, Orbit is perfect for the most demanding environments. Easily managed and simple to use, our lock solutions modernize any space with improved flexibility and collaboration.

Key Features

RFID standards

- Compatible with 13.56 MHz RFID standards – iClass, Felica, HID SEOS, DESfire, and Mifare - ISO 14443A • ISO 14443B • ISO 15693

Product

- Profile consists of key insert only for a seamless look
- Visual and audible indicators
- Check battery status option
- ADA compliant
- FCC, CE and IC certified

Functionality

- Dual functionality – shared or assigned use
- Manage with the Basic or Advanced system

Installation

- Inside mount
- Multi-directional locking mechanism
- Designed for both new or retrofit installations
- Adaptable to multiple door thicknesses
- 1/2" (12.7 mm) motorized deadbolt or deadlatch
- Patented variable backset

Power

- Up to 6 years battery life with average use
- Powered by 4 premium 123a batteries

Support

- Onsite product updates
- Lifetime support
- 2-year warranty

Covered by one or more of US Patent Nos. 10,697,203 & 10,711,489, and other pending and issued US and foreign patents.

2 FUNCTIONALITY

Choose the Use Case That's Right for You.

SHARED USE

A simple day-use solution, shared-use functionality lets the User select any available storage space and present a valid credential to both lock and unlock an Orbit unit. When the current User is done and the storage space is vacated, Orbit is ready for the next user and credential.

OR

ASSIGNED USE

If you need to assign storage for a longer period of time, assigned use lets Management program single or multiple credentials to the lock for the User or Users. Each User presents the assigned credential to unlock an Orbit unit. Then the auto-relock feature is activated requiring the User to simply shut the door.

Locking Options for Shared and Assigned Use

DUAL-USE DEADBOLT

SHARED USE   ASSIGNED USE

AUTO-RELOCK DEADLATCH

ASSIGNED USE ONLY

Speak to a Digilock representative for more information on the locking option that is right for your use case.

3 MANAGEMENT

Two Management Systems. One Smart, Scalable Solution.

Basic:

Digilock's original, electronic key system provides reliable and cost-effective security and flexibility.

- A single yellow Programming Key assigns up to 6 Manager Keys per system
- Assign up to 20 different Users per lock
- Provides Management override access
- Provides external power against battery failure
- Elapsed-time auto unlock

OR

Advanced:

Digilock's advanced management system is built on the same time-tested but leverages the processing power of the mobile tablet and application to provide more powerful tools and easier, more detailed system management.

- A single white Data Key assigns up to 250 Manager Keys or cards per system
- User/Manager database simplifies assignment/reassignment of up to 250 Users and 250 Managers per lock
- Audit trail and usage data analytics reports
- Simple, visual battery-level indicator
- Real-time clock allows scheduled auto unlock
